Our Mission

To create value in the lives of people through innovation and thereby develop a sense of pride for those associated with us. We have quality checks at each and every stage of the process to ensure that quality standards are maintained. Following which, our finished products are subject to stringent functionality tests.

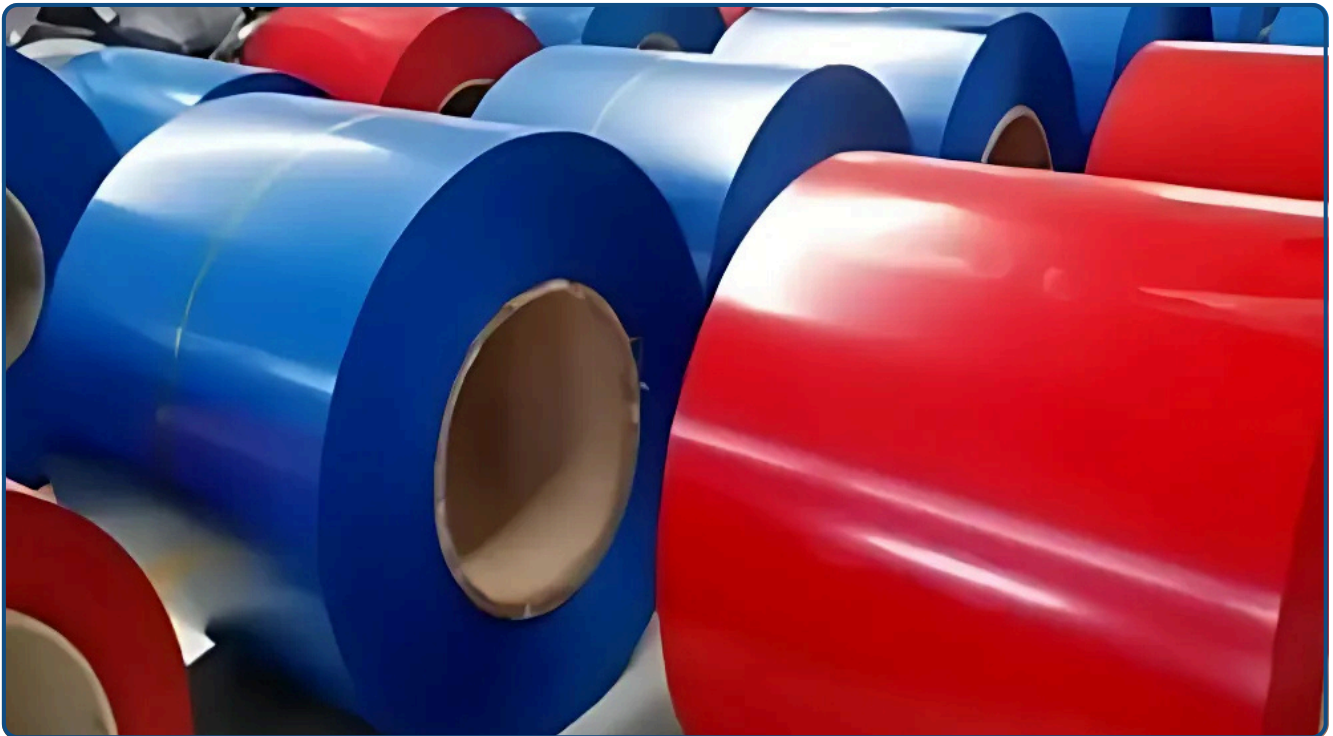

We strive to create value for our customers through our range of products for everyone associated with us

Quality is our promise, your satisfaction is our priority.

Our Certifications

MILD STEEL PPGI SHEETS & COILS

Fortran Steel specializes in high-quality PPGI sheets and PPGI coils, designed to meet the demands of various industries. Our prepainted galvanized steel coils are manufactured using advanced technology for superior strength and durability. Available in multiple sizes and colors, they are ideal for applications such as roofing, cladding, and structural projects.

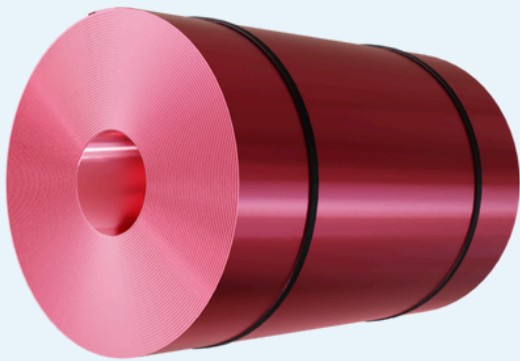

Our PPGI roof sheets offer excellent corrosion resistance and long-lasting performance, making them suitable for harsh weather conditions. With competitive pricing on PPGI sheets and coils, we provide cost-effective solutions without compromising quality. These prepainted galvanized iron sheets are easy to install and ensure enhanced structural integrity.

As a trusted PPGI sheet and coil supplier, Fortran Steel delivers products that meet international standards. Our PPGI color-coated sheets and profile sheets offer both functionality and aesthetic appeal, catering to commercial and industrial applications. With various thicknesses and dimensions available, we provide tailored solutions for diverse project needs.

- Annealing
- Stress Relieving / Spheroidizing

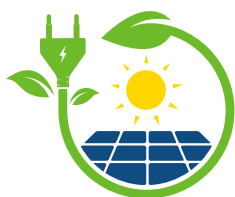

Grades

ASTM A 792	JIS G 3321
EN 10326	AS 1397
ASTM 653/A	HSLA
EN 10326	80 GSM
120 GSM	275 GSM

Sustainability At Our Core

Our company's rainwater harvesting system conserves 5,000 liters of water every day. This adds up to 1.5 million liters annually, contributing to sustainable practices and reducing our environmental footprint significantly.

Our solar power system saves 1 million units of electricity annually, reducing energy costs and supporting our commitment to sustainability.

We ensure CBAM compliance by utilizing recycled steel in our processes, reflecting our commitment to sustainability and eco-friendly practices. This approach minimizes carbon emissions and aligns with global climate and regulatory goals.

We are aligning our efforts with global carbon emission goals, driving sustainable practices to create a greener, more eco-friendly future.

**We Save
1.5 Million litres of
water every year**

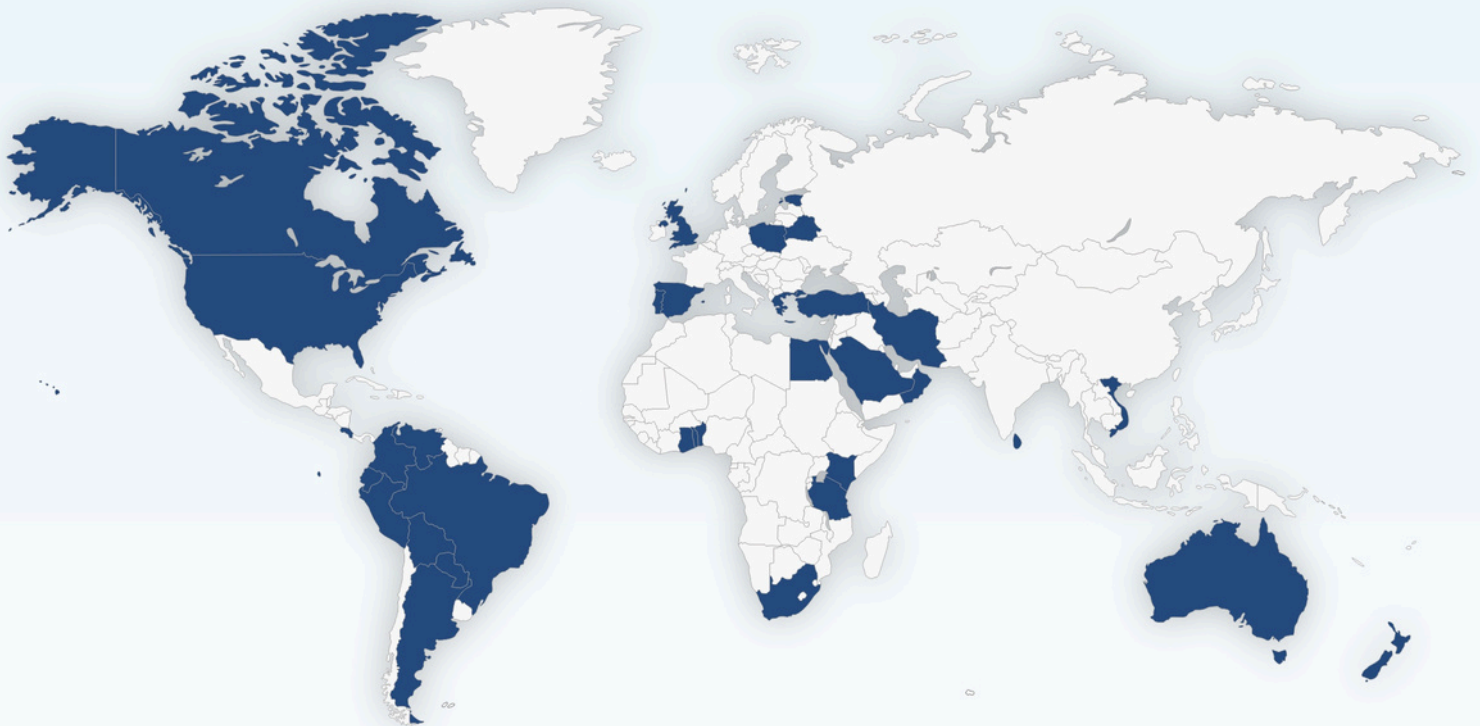

**1 Million
units of Electricity
