## Our Mission

To create value in the lives of people through innovation and thereby develop a sense of pride for those associated with us. We have quality checks at each and every stage of the process to ensure that quality standards are maintained. Following which, our finished products are subject to stringent functionality tests.

We strive to create value for our customers through our range of products for everyone associated with us

**Quality is our promise, your satisfaction is our priority.**

## Our Certifications

## MILD STEEL HRPO SHEETS

HRPO sheets and coils (Hot Rolled Pickled and Oiled) are widely used in industrial and manufacturing applications for their strength, durability, and superior surface finish. As an authorized JSW Steel distributor, Fortran Steel provides high-quality HRPO sheets and coils that meet stringent industry standards, ensuring reliability across various sectors.

HRPO sheets are produced by removing mill scale from hot rolled steel through a pickling process, followed by oiling to prevent rust. This results in clean, smooth sheets with enhanced mechanical properties, making them ideal for applications requiring a refined surface and improved workability.

Fortran Steel's HRPO coils offer excellent formability and weldability, making them suitable for automotive, construction, and general manufacturing industries. Available at competitive prices, our hot rolled pickled and oiled coils provide an economical yet high-performance solution for a wide range of industrial needs.

## MILD STEEL HRPO SHEETS

### Applications

- Construction
- Automotive
- Machinery Manufacturing
- Metal Fabrication
- Agricultural Equipment
- HVAC Systems
- Appliance Manufacturing
- Pipe and Tube Manufacturing

### Sizes

1.2 - 25.4mm

### Tolerances

h11, h12

### Heat Treatment

- Annealing
- Stress Relieving / Spheroidizing

### Grades

ASTM A1011	ASTM A1018
ASTM A36	ASTM A572
ASTM A656	ASTM A569
HSLA	LPG
Chequered plates	Forming grades

## Sustainability At Our Core

Our company's rainwater harvesting system conserves 5,000 liters of water every day. This adds up to 1.5 million liters annually, contributing to sustainable practices and reducing our environmental footprint significantly.

Our solar power system saves 1 million units of electricity annually, reducing energy costs and supporting our commitment to sustainability.

We ensure CBAM compliance by utilizing recycled steel in our processes, reflecting our commitment to sustainability and eco-friendly practices. This approach minimizes carbon emissions and aligns with global climate and regulatory goals.

We are aligning our efforts with global carbon emission goals, driving sustainable practices to create a greener, more eco-friendly future.

**We Save  
1.5 Million litres of  
water every year**

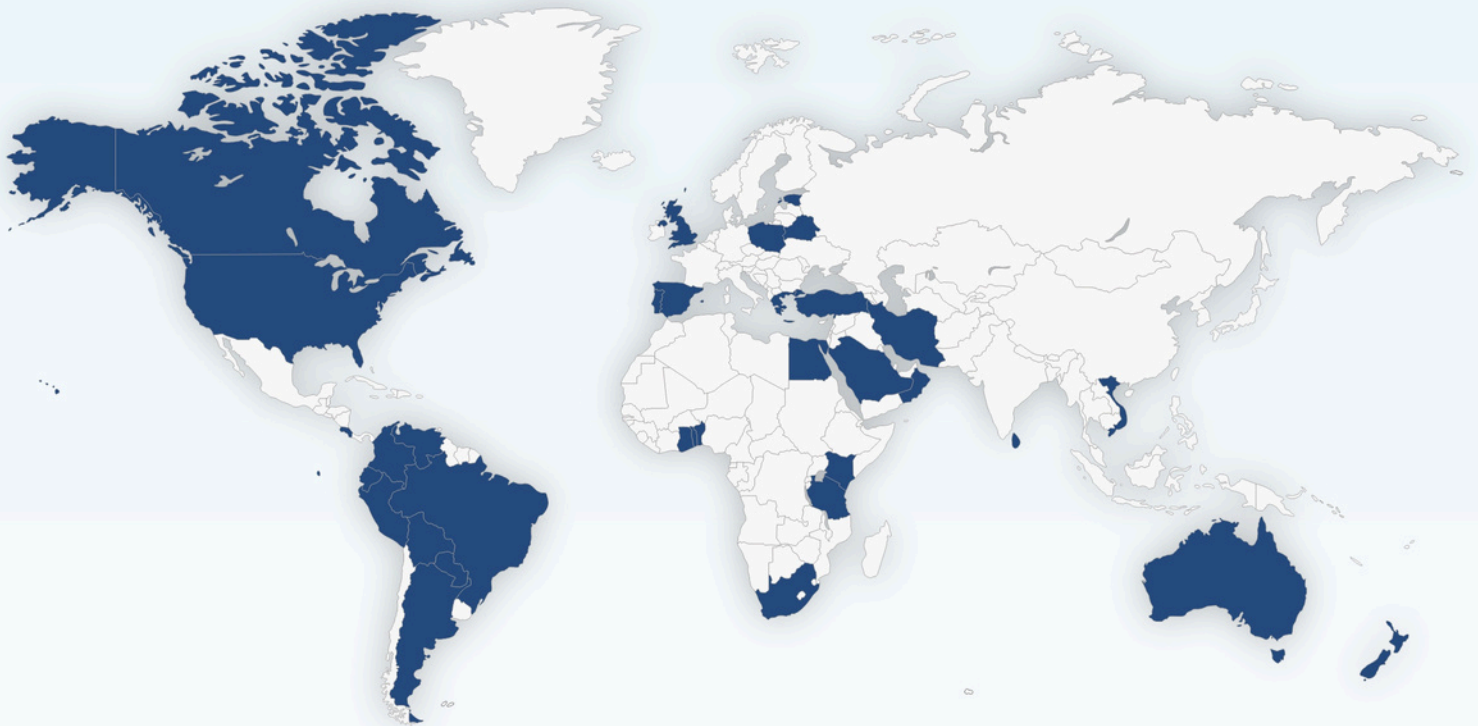

**1 Million  
units of Electricity  
saved every year**

**CBAM  
compliant**

**Reducing  
Carbon Emissions**

# Made in India, Exported worldwide.

**Factory Location close to JNPT Port, Navi Mumbai**  
**Currently exporting to 30+ Countries**

Building India, creating value for the world
