Our Mission

To create value in the lives of people through innovation and thereby develop a sense of pride for those associated with us. We have quality checks at each and every stage of the process to ensure that quality standards are maintained. Following which, our finished products are subject to stringent functionality tests.

We strive to create value for our customers through our range of products for everyone associated with us

Quality is our promise, your satisfaction is our priority.

Our Certifications

MILD STEEL BRIGHT ROUND BARS

Boost your most innovative projects with Fortran Steel's Mild Steel Bright Round Bars, engineered for superior strength, durability, and versatility. Designed to meet the needs of construction, engineering, and decorative applications, our MS bright bars offer the perfect balance of robust performance and sleek aesthetics. With a smooth finish and high dimensional accuracy, these bars enhance functionality and visual appeal, making them the preferred choice for diverse industries.

Fortran Steel ensures that every bright mild steel round bar meets the highest quality standards. Our MS bright round bars are available in a wide range of sizes, catering to structural, mechanical, and precision-based applications. Their exceptional machinability, weldability, and resistance to wear make them ideal for both industrial and decorative purposes.

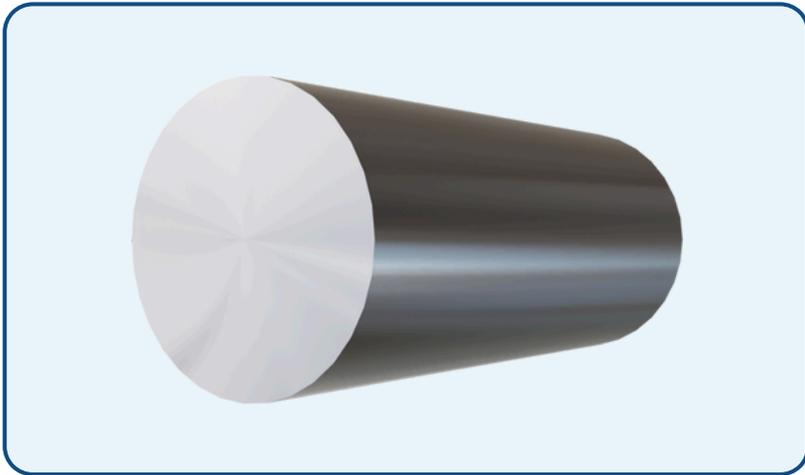

With our commitment to quality, consistency, and innovation, we provide mild steel round bars that offer superior performance and aesthetic refinement in every project. Choose Fortran Steel and build with confidence.

Sustainability At Our Core

Our company's rainwater harvesting system conserves 5,000 liters of water every day. This adds up to 1.5 million liters annually, contributing to sustainable practices and reducing our environmental footprint significantly.

**We Save
1.5 Million litres of
water every year**

Our solar power system saves 1 million units of electricity annually, reducing energy costs and supporting our commitment to sustainability.

**1 Million
units of Electricity
saved every year**

We ensure CBAM compliance by utilizing recycled steel in our processes, reflecting our commitment to sustainability and eco-friendly practices. This approach minimizes carbon emissions and aligns with global climate and regulatory goals.

**CBAM
compliant**

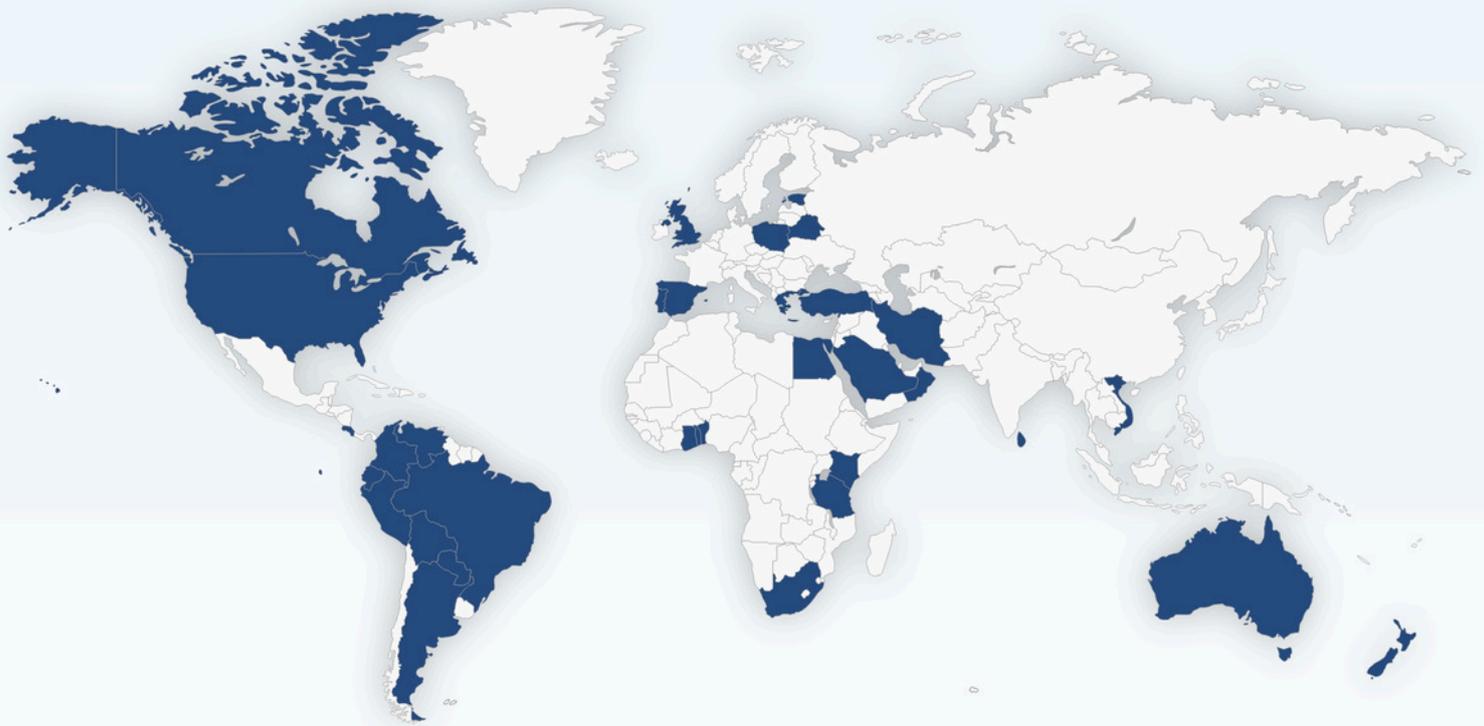

We are aligning our efforts with global carbon emission goals, driving sustainable practices to create a greener, more eco-friendly future.

**Reducing
Carbon Emissions**
