Our Mission

To create value in the lives of people through innovation and thereby develop a sense of pride for those associated with us. We have quality checks at each and every stage of the process to ensure that quality standards are maintained. Following which, our finished products are subject to stringent functionality tests.

We strive to create value for our customers through our range of products for everyone associated with us

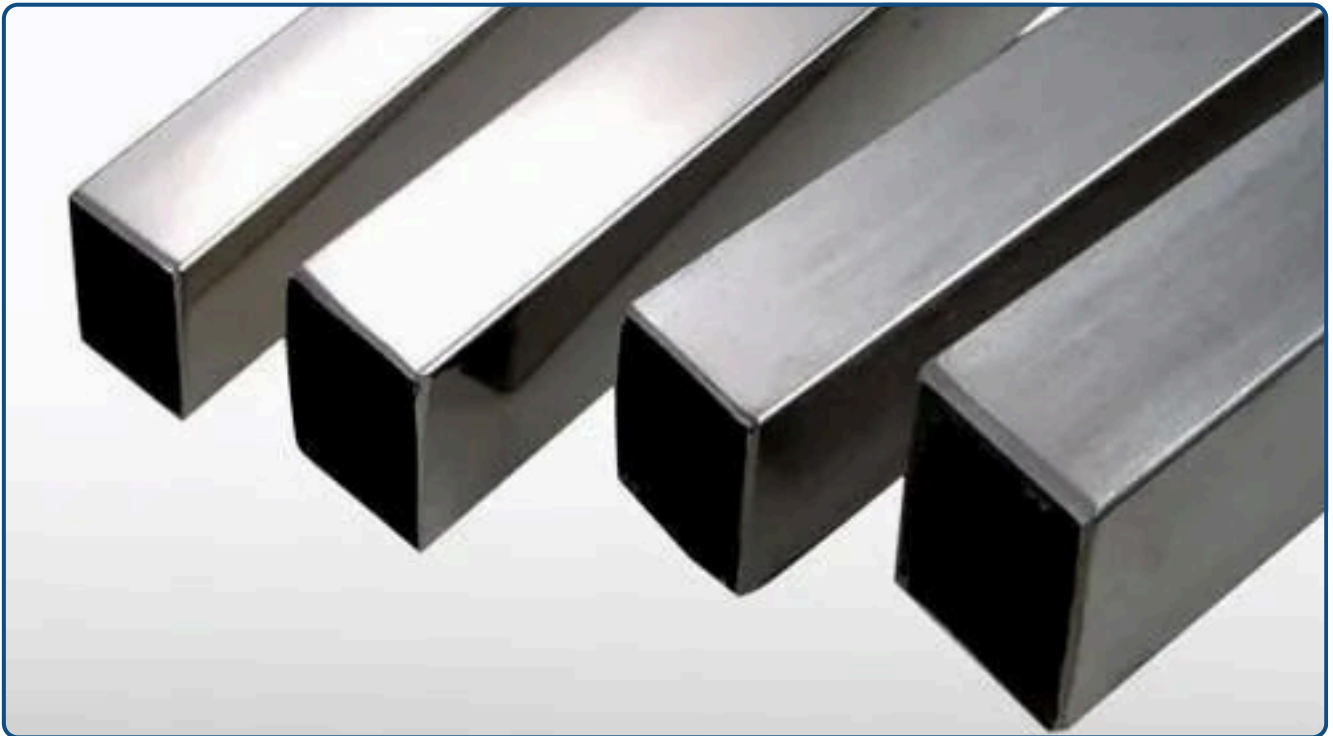

Quality is our promise, your satisfaction is our priority.

Our Certifications

MILD STEEL BRIGHT SQUARE BARS

Fortran Steel's MS Bright Square Bars represent the perfect blend of strength, precision, and sleek aesthetics. Designed to meet the highest industry standards, our square MS bright bars offer superior durability, exceptional finish, and unmatched reliability. We ensure that each bar is meticulously crafted to deliver consistency, accuracy, and performance in every application.

From structural frameworks to decorative elements, our mild steel bright bars are engineered to excel in a variety of applications. The premium-grade bright mild steel used in our production process ensures a smooth, polished surface while maintaining high strength and excellent machinability. Whether you require bright mild steel square bars for construction, precision engineering, or specialized fabrication, we provide the ideal solution tailored to your steel bar requirements.

At Fortran Steel, we take pride in being a trusted bright mild steel bar supplier, offering unwavering quality and customer satisfaction. Our commitment to excellence and innovation ensures that our MS bright square bars stand out in both performance and aesthetic appeal.

Sustainability At Our Core

Our company's rainwater harvesting system conserves 5,000 liters of water every day. This adds up to 1.5 million liters annually, contributing to sustainable practices and reducing our environmental footprint significantly.

Our solar power system saves 1 million units of electricity annually, reducing energy costs and supporting our commitment to sustainability.

We ensure CBAM compliance by utilizing recycled steel in our processes, reflecting our commitment to sustainability and eco-friendly practices. This approach minimizes carbon emissions and aligns with global climate and regulatory goals.

We are aligning our efforts with global carbon emission goals, driving sustainable practices to create a greener, more eco-friendly future.

**We Save
1.5 Million litres of
water every year**
