Our Mission

To create value in the lives of people through innovation and thereby develop a sense of pride for those associated with us. We have quality checks at each and every stage of the process to ensure that quality standards are maintained. Following which, our finished products are subject to stringent functionality tests.

We strive to create value for our customers through our range of products for everyone associated with us

Quality is our promise, your satisfaction is our priority.

Our Certifications

MILD STEEL HOT ROLLED ROUND BARS

Experience the versatility and reliability of our mild steel round bars, crafted to meet the highest industry standards. As a trusted MS round bar manufacturer, Fortran Steel ensures each bar is produced with precision and consistency. Our commitment to quality guarantees durability and superior performance, making our round mild steel bars an ideal choice for construction, fabrication, and manufacturing applications.

Available in various standard sizes like 5mm, 10mm, and 25mm, our mild steel round bars cater to diverse project needs. Whether you require a mild steel solid round bar for structural purposes or specific MS round bar sizes for engineering applications, we provide solutions that meet your exact specifications.

With exceptional strength and adaptability, our mild steel round bars deliver reliable performance across industries. Choose Fortran Steel for products that embody strength, innovation, and sustainability—qualities that set us apart as a leader in the steel manufacturing industry.

Sustainability At Our Core

Our company's rainwater harvesting system conserves 5,000 liters of water every day. This adds up to 1.5 million liters annually, contributing to sustainable practices and reducing our environmental footprint significantly.

Our solar power system saves 1 million units of electricity annually, reducing energy costs and supporting our commitment to sustainability.

We ensure CBAM compliance by utilizing recycled steel in our processes, reflecting our commitment to sustainability and eco-friendly practices. This approach minimizes carbon emissions and aligns with global climate and regulatory goals.

We are aligning our efforts with global carbon emission goals, driving sustainable practices to create a greener, more eco-friendly future.

**We Save
1.5 Million litres of
water every year**

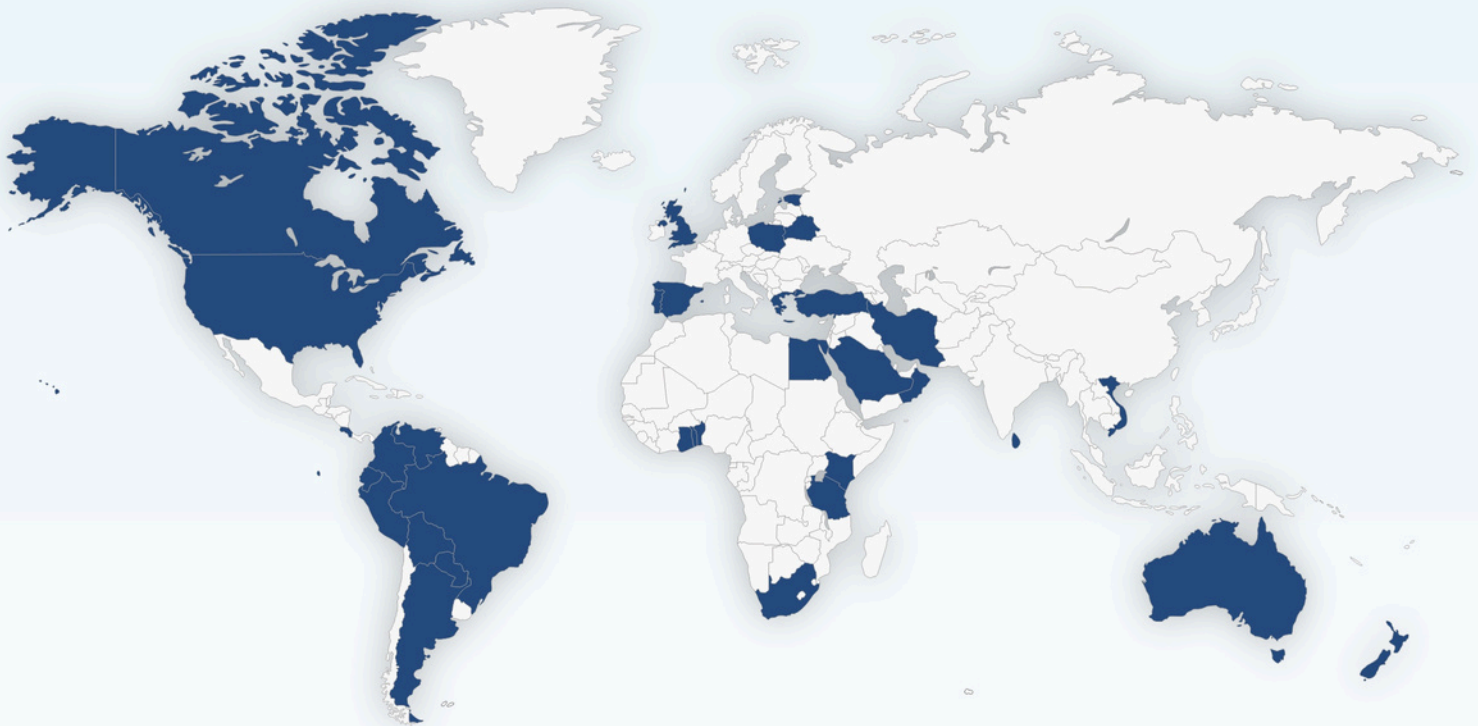

**1 Million
units of Electricity
saved every year**
